United Kingdom & Ireland Controlled Release Society

## UKICRS Exhibition Workshop & Symposium

**4–5 June 2018, Queen's University Belfast, Belfast, UK**

The UKICRS committee invite your company to attend the 2018 Exhibition Workshop & Symposium to be held in Queen's University Belfast, Belfast, UK on the 4th and 5th June 2018. The main Symposium event will take place on Tuesday 5th June, with the Exhibition Workshop scheduled for Monday 4th June.

As in previous years, the Exhibition Workshop event will comprise a series of short technical presentations that will provide company representatives the opportunity to advertise and demonstrate their products. Where appropriate, Workshop attendees are actively encouraged to bring samples for testing on the various equipment exhibited. The event offers a unique opportunity for companies to interact with potential end users of their products, including leading university researchers and industrialists from around the UK and Ireland. Previous Workshops have been a great success.

UKICRS offers two different packages (see [www.ukicrs.org/packages.html](http://www.ukicrs.org/packages.html) for details) for exhibition at the 2018 Exhibition Workshop & Symposium. Both packages include attendance of ONE company representative, ample floor space for exhibits, and the option to bring equipment for demonstration (subject to height restrictions).

### Gold Package

- Attendance, exhibition stand and oral technical presentation at the Exhibition Workshop (Monday 4th June 2018)
- Attendance and exhibition stand at the Symposium (Tuesday 5th June 2018)
- A **full-page** advertisement in the 2019 UKICRS Newsletter ([www.ukicrs.org/newsletter.html](http://www.ukicrs.org/newsletter.html)). 800 copies of the newsletter will be printed in full colour for mailing direct to ~300 UKICRS members, and distribution at both the Annual Meeting of the Controlled Release Society and the UK PharmSci conference.
- Promotion of company logo on UKICRS website
